● PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented Graphics Designer & Multimedia Specialist with a strong foundation in visual branding, motion graphics, and web development. Skilled in the Adobe Creative Suite and Blender, with hands-on experience delivering complete branding packages, logos, and promotional media through self-directed and academic projects. A fast learner and dedicated problem-solver, eager to bring creativity, precision, and a strong work ethic to an entry-level design or multimedia role.

● PROJECTS & PORTFOLIO

Brand Identity Package — Vladimir Makarov Car Import & Export *Personal Project*

- Designed a complete branding package for a local import/export business, including logo, business card, banner, and promotional flyer, using Adobe Illustrator and Photoshop.
- Developed a cohesive visual identity by aligning color palette, typography, and layout across all brand touchpoints to strengthen client recognition.
- Managed the project independently from concept through final delivery, producing polished, print-ready assets.

Logo Design — Peacock Music Band & Kick-Fit Football Team *Personal Project*

- Created distinct, memorable logos for two separate clients — a music band and a football team — tailoring each design to reflect its unique brand personality.
- Applied typography and iconography principles to produce versatile, scalable logo marks suitable for digital and print use.
